Hi Fran / Jane / Carol,
Just to update you on the implementation work done today.
We have completed implementing 15 prints today.
This is exactly 50 % of the total prints. Remaining 15 prints would be done onsite as discussed today.
We would like to mention a big thanks to you Fran, for pushing with shobiz guys to allow at least 50% work to be done today, thereby saving our day. else it would have been a huge disappointment for our team returning without doing anything especially on a Sunday, even though numerous mails were exchanged regarding today's schedule yesterday.

@ Fran, thanks for the appreciation. I shall convey the same to installers.
Looking forward to the new files from you.

Rgds,
Navraj Ghimire

Dear Navraj,

Please forgive me for giving you insufficient information about the indigo printed agendas you mentioned below. I thought Carol had given you the specifications earlier.

These can be printed and finished at Comart, they need no mounting or lamination.

I have not seen the design for this yet so some of the specifications are still to be determined.

With this information in mind, would you let me know the absolute latest date and time to receive the final artwork files in order to have them delivered to the St. Regis by end of day on February 3.

Thanks!
